Hi Stacy and Alayna,  
Its been 18 months since we shared our hard copy reports with you for the Lake Conestee site.  
I believe you scanned all of those, if I recall.  
I'm now having trouble locating some of those reports, and have other parties also asking for access to those reports.  
In particular I'm looking for access to the "Combined Data Report," which was compiled about 2005-06.  
I would very much appreciate you making those digital files available to us at CF.  
Please let me know how to transfer those files.  
I can be contacted anytime at this email address, or via cell at 864.787.8160.  
I'll look forward to hearing from you soon.  
Very best regards,  
Dave

Hi Stacy

Thanks for the quick response....

I'm in the process of rounding up copies of the key reports you will need for your review.

Basically the original TBA reports, and the Ecological Risk report. We'll make a shipment today via FedEx to your Marietta office. Over the weekend I'll try to see if I have just the key tables / data summaries in xls format so you can get to the core content. The TBA report will give you background details on procedures, screening standards, sample locations, etc.

All docs are precious so please return them.

I'll send an email if we need to hang anything on your FTP site.

Look forward to working with you and Jeff !

Have a great weekend.

Dave

Hi Dr. Dave,

My IT department sent this to me, so I am passing it along. To upload anything to the ftp, the following is the 411:

I've created an FTP account for David with the requested access. He can go to <https://ftp.oescgroup.com> and sign in with the credentials below. Please pass this information on to him.
